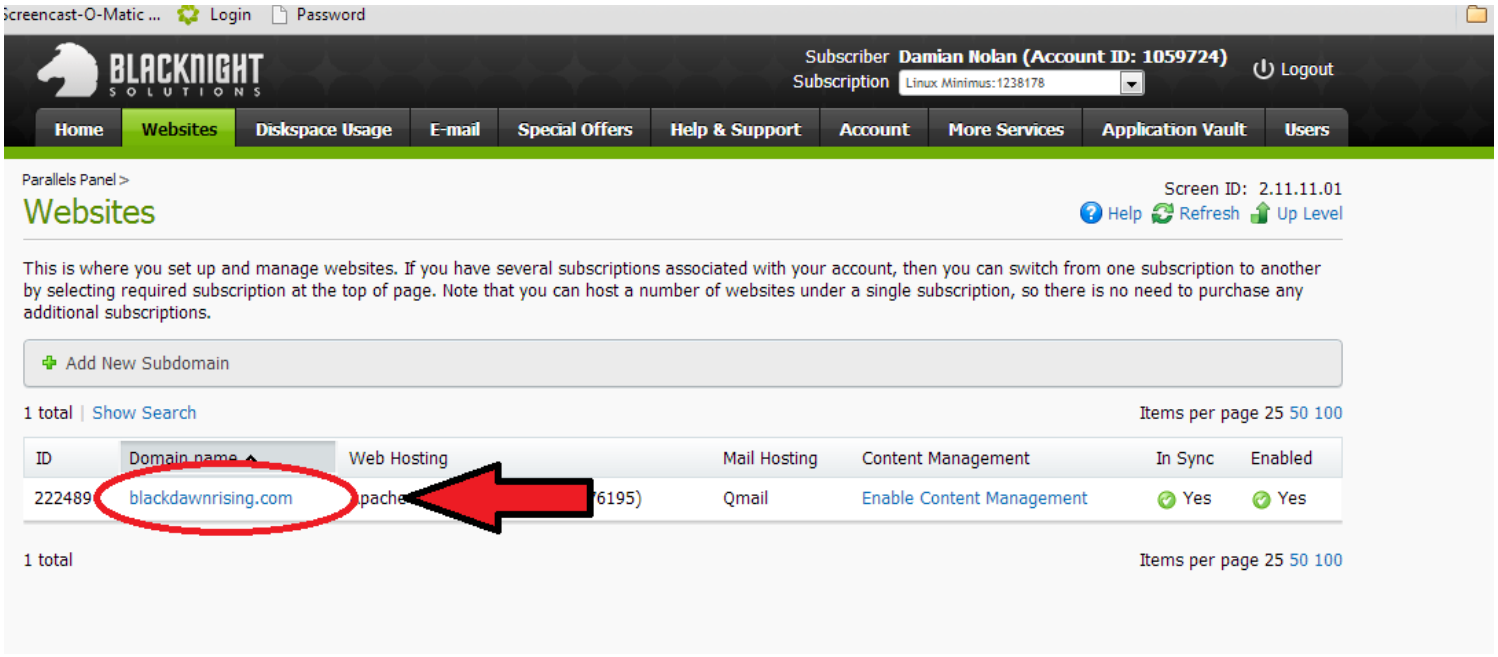
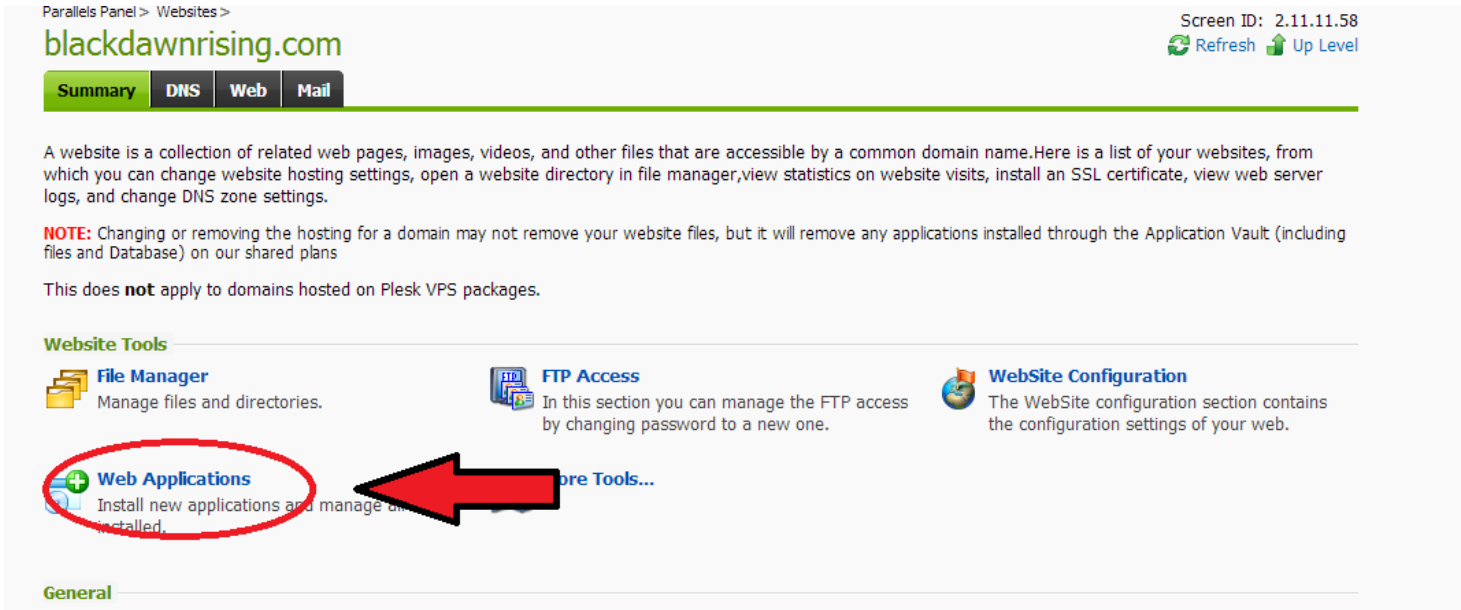
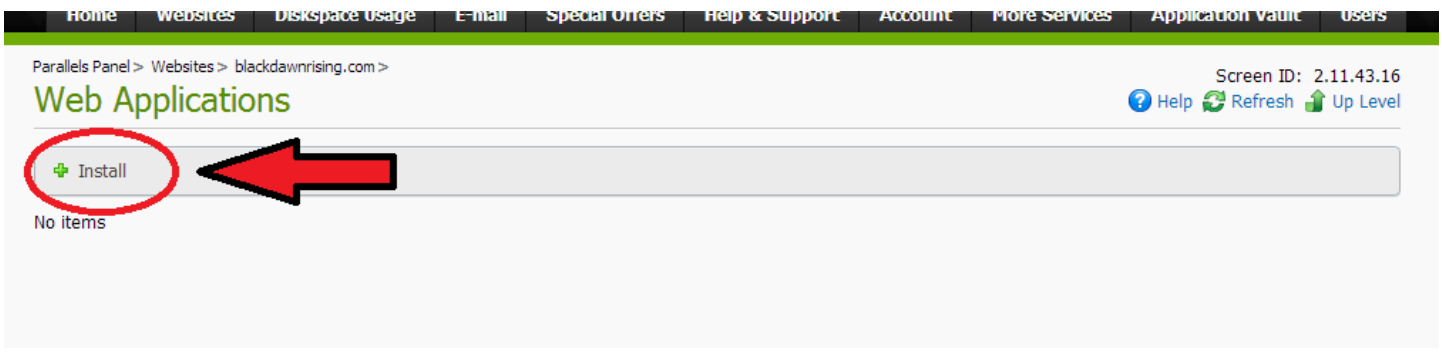
1) Click on your domain name:



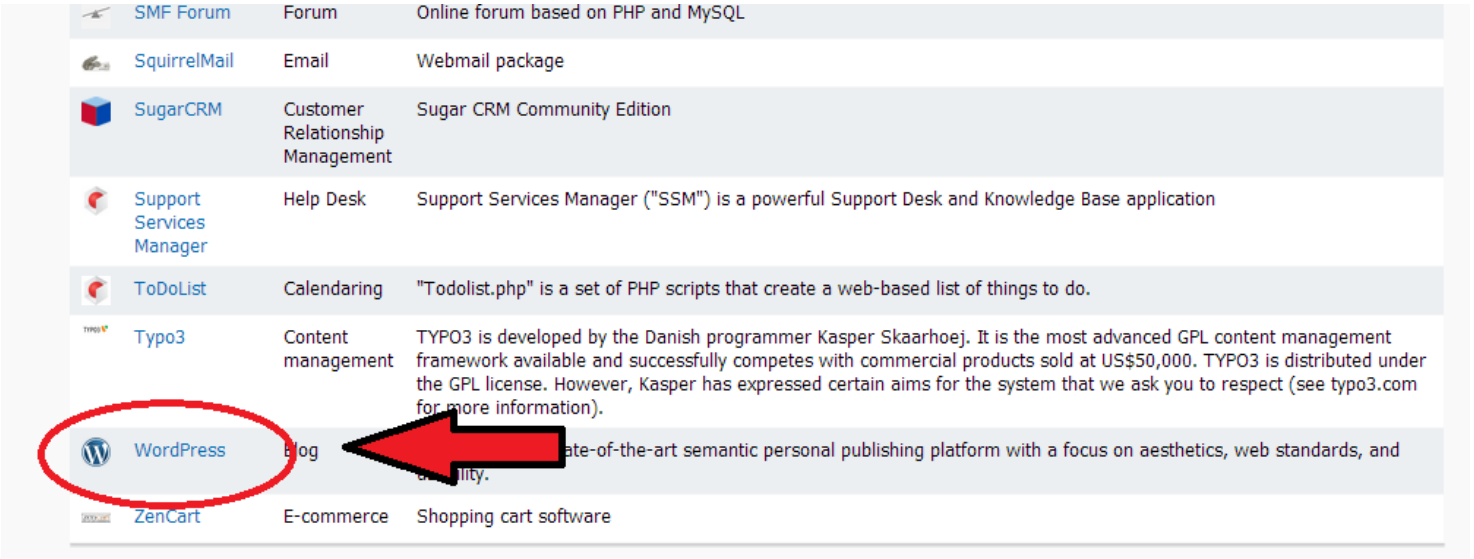
2) Now click on Web Applications:



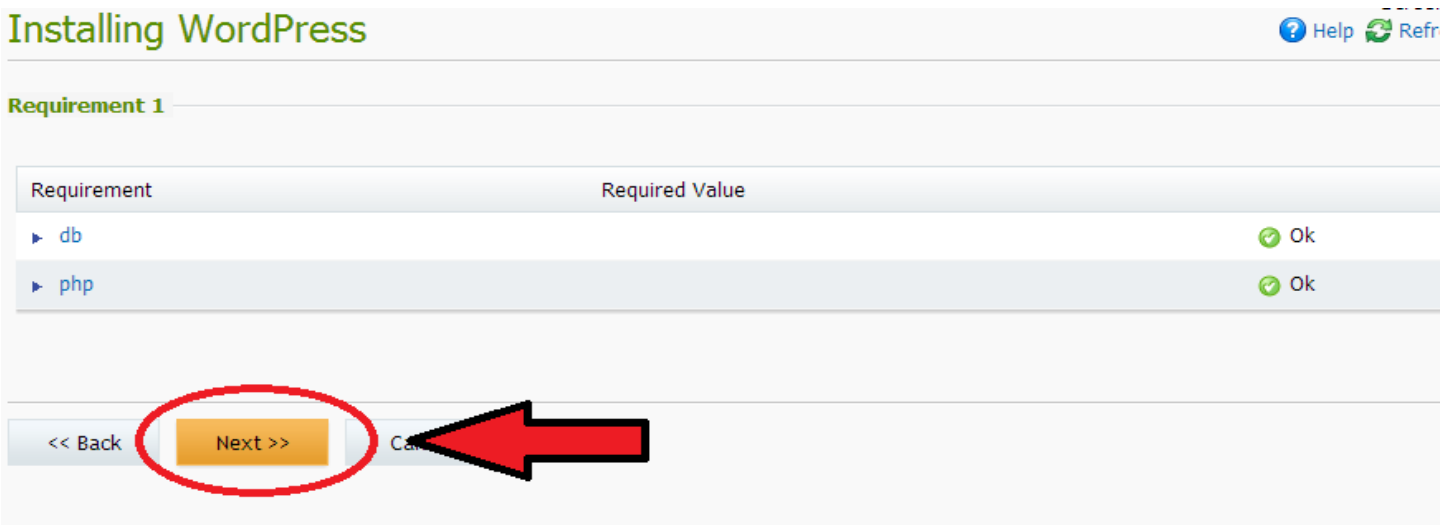
3) Now click on Install:



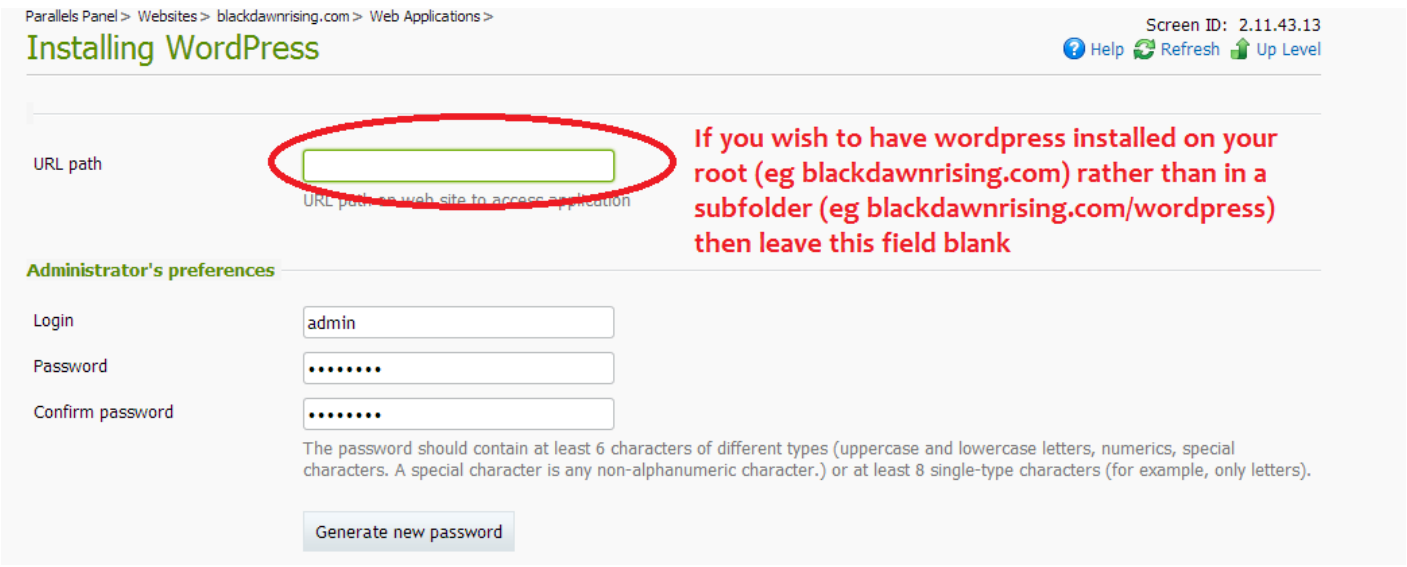
4) Now scroll down and click on Wordpress:



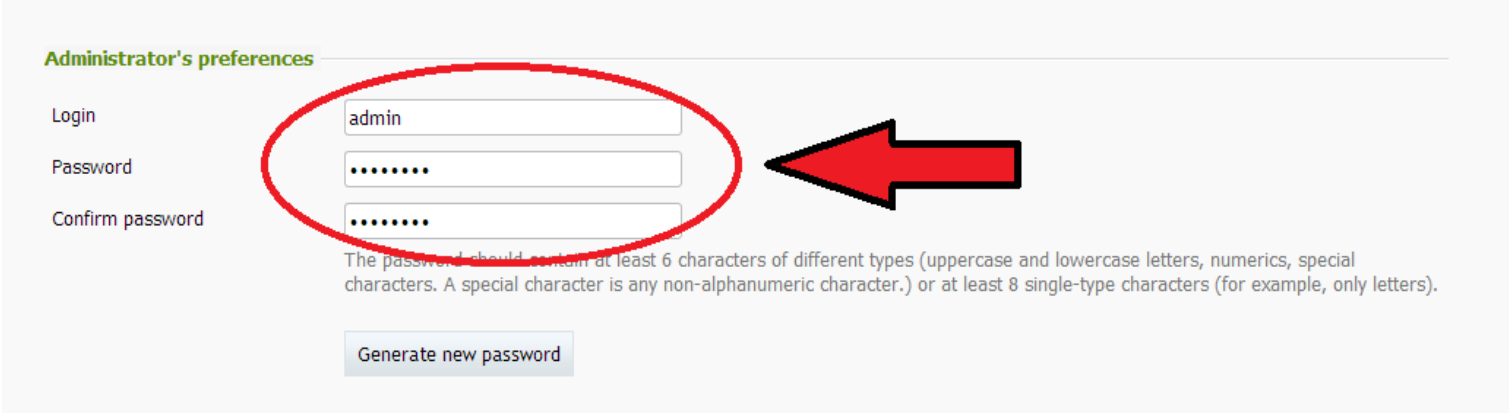
5) Now click Next:



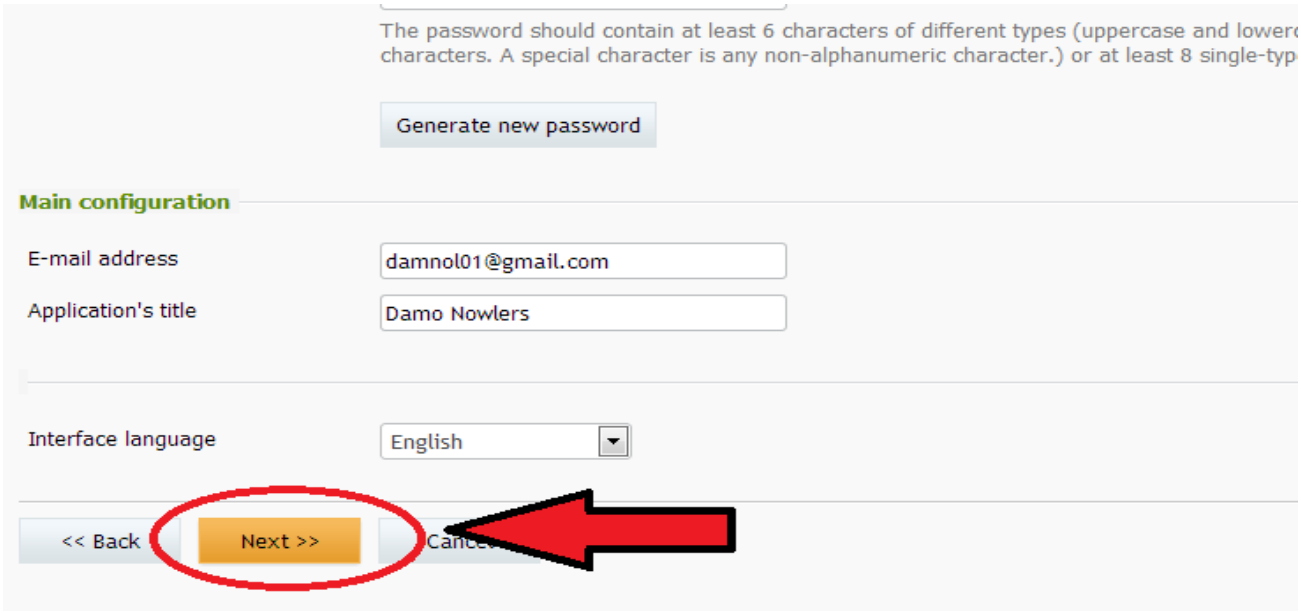
6) Now fill out the details needed on screen:



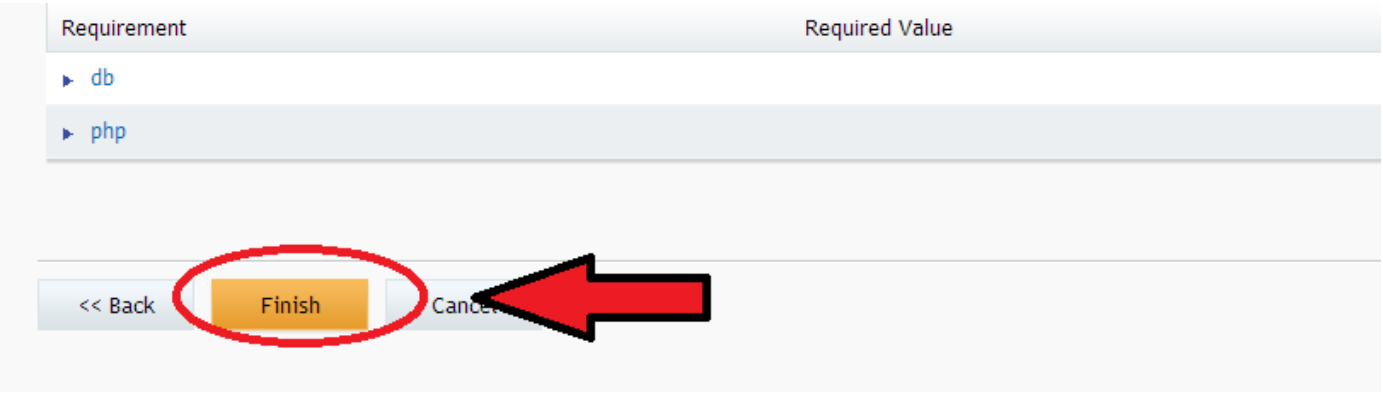
7) Input whatever details you wish to use in order to log into your wordpress dashboard



8) Now click Next:



9) Now click Finish



It will take 5-10 mins for wordpress to install, but once installed you can log into your wordpress dashboard by visiting http://domain.com/wp-admin

or in this case:

http://blackdawnrising.com/wp-admin

If you are new to wordpress then a link you may find useful is:
